Warner Books Mission:

“Committed to offering a quality product coupled with the finest quality of service”

- Warner Books

Shelf Ready Services

About Warner Books

Warner Books is a privately owned business, established in 1985. In 1988 we changed the direction of our book supply business to become specialist suppliers of reference materials to libraries throughout Australia, New Guinea and New Zealand.

More recently we have sought to represent some of the finest publishers of monographs and reference titles in the world. Our agencies now include Bloom's Literary Criticism, Checkmark Books, Chelsea House, Facts on File, Millennium Shakespeare, Nova Galicia, The Pepin Press, Salem Press and Sharpe Reference.

Our ongoing commitment to seeking out the finest works in non fiction publishing for schools, libraries, universities and the discerning public has positioned us as innovators in our field. Our staff are constantly challenged by the rapidly evolving marketplace and a firm commitment to providing quality materials across the print and online reference range. At all times Warner Books strives to seek out the specialist, academic and esoteric in publishing. As a company, we are particularly perceptive to the needs of the client base and Warner Books prides itself on its deserved reputation as *The Reference Specialists*.

Our latest move into end processing will offer you an unobtrusive and seamless cataloguing/shelf ready service, allowing you to free up staff for more important key processes within your library. As always, we are offering a quality product, coupled with the finest quality of service.

Our Team..

Serving Libraries Since 1985

Our competitive advantage is based on the relationships we have forged over the years with publishers, clients and industry people. Recently our partnership with specialists in the field of shelf ready, the quality of our joint work and our willingness to adapt to clients needs and requirements has seen us further broaden our horizons.

Our skilled and qualified staff maintain high standards of processing and cataloguing and we are now processing in excess of 150,000 items each year. Original and copy cataloguing is provided by fully qualified librarians with extensive cataloguing experience in public and tertiary libraries. Accuracy and short term turn around times are our top priorities and we will catalogue to suit individual libraries collections.

The covering materials used are of the highest standard and we do not compromise on quality. We choose to use Raeco and Nova products.
